The Allegheny County Health Department and Department of Human Services are teaming up to gather the voices of community leaders just like you for a conversation about the county's COVID-19 Crisis Response – past, present and future. We are particularly interested in how we can best:

- Reach residents of color, new arrivals who are non-English speakers and residents of low-income communities with important life-saving messages.
- Engage with communities regarding the placement of quarantine/ isolation facilities in neighborhoods.
- Present life-saving information in a way that it is accepted as helpful and non-threatening.

There are 4 scheduled sessions:

### DHS Guidance for all Housing/Residential Providers

As a reminder, we have created a [toolkit for residential providers](#): Infection Prevention and Control Guidance for Behavioral Health Residentially Based Care/Services, Youth Congregate Care, Emergency Shelters and other housing providers.

- We worked closely with the Allegheny County Health Department; it draws on their guidance as well as guidance provided by the CDC, the PA Department of Health and the NY State Office of Mental Health.

Highlighted Guidance includes:

- Admissions
  - Programs should continue accepting new client referrals and admitting new clients.
  - All clients should be screened for COVID-19 symptoms and exposure.
  - Given the limitations in testing, programs cannot reasonably require a COVID-19 test as a condition of admission.
  - Clients should not be refused admission solely based on their COVID-19 status or health conditions that place them at greater risk when combined with COVID-19.
  - Programs are expected to isolate clients who are symptomatic and/or have tested positive for COVID-19 onsite whenever possible and immediately contact the health department.
  - **Behavioral Health and Intellectual Disability residential providers**, please work closely with your DHS office (Office of Behavioral Health or Office of Intellectual

Disabilities) when pursuing any referrals to an offsite isolation and quarantine facility. We will do a quick case conference with you to coordinate appropriate supports.

- Screening
  - Determine if client has a fever.
  - Ask the client “Do you have a new or worsening cough today?”
  - Ask the client if they have been exposed.
  - If yes, follow the procedure in the guidance document and use standard protocols for medical emergencies.
- Intake and isolation protocols: use the flow chart and guidance provided in the toolkit.

We are continuing to improve our website, located at [www.bit.ly/COVID19DHSProviders](http://www.bit.ly/COVID19DHSProviders).

- The [Operational Changes Tracker](#) is now live.
- We have reorganized the site, moving all program-specific information to a menu bar on the top of the site.
- You can reach us by email at [DHS-COVID19planning@alleghenycounty.us](mailto:DHS-COVID19planning@alleghenycounty.us). We will answer all questions and elevate issues to inform the network.

### State and local updates
