# Courts, Jail

- The Jail announced today that one inmate has tested positive for coronavirus and that the individual and his/her cell mate have been quarantined since the onset of symptoms.
- The Jail reports that contract tracing will occur, and the jail is following guidance provided by the Allegheny County Health Department.

# Adults in Detention

- Substantially the same order as for juveniles
- The Pa Supreme Court denied the request to invoke its King's Bench authority to order the immediate presumptive release of specified categories of incarcerated persons to prevent the spread of COVID-19 in the county correctional institutions
- But pursuant to its general supervisory and administrative authority over all courts and magisterial district judges, the Court **directed the President Judges of each judicial district, or their judicial designees, to engage with other county stakeholders to review immediately the current capabilities of the county correctional institutions in their district to address the spread of COVID-19.**
- And, if utilization of public health best practices is not feasible due to the population of the county correctional institutions, President Judges should consult with relevant county stakeholders to identify individuals and/or classes of incarcerated persons for potential release or transfer to reduce the current and future populations of the institutions during this health crisis with careful regard for the safety of victims and their communities in general, with awareness of the statutory rights of victims, and with due consideration given to public health concerns related to inmates who may have contracted COVID-19.
- Moreover, **President Judges are to undertake efforts to limit the introduction of new inmates into the county prison system.**

<b>Notes:</b> Currently 70 centers open or preparing to reopen, ~220 open spots, many willing to reopen if demand exists			<b>Notes:</b> Local philanthropic community have made this a priority, state is continuing to make subsidy payments to providers, federal bill includes support for childcare, figuring out the logistics to get \$ to providers and families is the challenge

		Agencies invoke their own COOP plan				20 - 39% of necessary supplies are available for the essential service to be safely and adequately delivered to those in need	
<b>Notes:</b> Providers are functioning, with some staff performing virtual case management as needed. At risk staff at several agencies are working remotely, but some staff are calling off or not showing up. Staffing issues have not forced services to be closed at any providers, but the network is at risk.				<b>Notes:</b> Necessary cleaning supplies and protective equipment are in low supply, and masks are in very low supply. Providers are trying to secure supplies on their own, but also hoping DHS can provide.			
<b>Service Locations:</b>	<b>Stable</b>	Level 1		<b>Funding:</b>	<b>Stable</b>	Level 1	
		100% coverage to the public from normal Service Locations, which are open and fully operational to the public and those in need				Normal funding available	
<b>Notes:</b> All shelter facilities are still open and are staffed. Shelters with vacancies are still accepting new clients. Isolation/quarantine spaces opening soon.				<b>Notes:</b> There are currently no funding concerns for the homeless network; federal stimulus bill includes some additional funding for homeless services.
