- **2. What kind of support is most helpful to you during this difficult time?** It's normal to be stressed and anxious during an emergency like this. We'd like to know more about what helps (or would help) most. Please give us your ideas for how we can make sure you're doing okay.
- **3. Are you worried about someone you care about?** What issues are you seeing and how can we help make sure they are doing okay?
- **4. How can we more actively support the fight against racism and injustice?**

UPCOMING ASAM ONLINE OVERVIEW

Alignment of Service Delivery with ASAM Criteria, 2013

- WHO:** Substance Use Disorder Treatment Providers
Program Directors/Managers
Chief Executive Officers
Clinical Supervisors
Clinicians
Payors
Single County Authorities
BH-MCOs
- WHAT:** Alignment of Service Delivery with ASAM Criteria, 2013
- WHERE:** Online Overview
- WHEN:** Beginning July 7, 2020. [View Rollout Schedule](#). No registration is required, use the specific link provided to join the designated meeting.

DETAILS: The Department of Drug and Alcohol Programs (DDAP) worked jointly with its sister agency, the Department of Human Services (DHS/OMHSAS) and its system partners to train over 8500 assessors and clinicians in the use of the ASAM Criteria and to facilitate the transition to the use of the ASAM Criteria as a level of care placement tool.

The next phase of the ASAM Criteria alignment process is to *make adjustments to the delivery of services* that ensures widespread use of evidence-based program standards, comprehensive treatment strategies and improved care coordination and transition between levels of care required for quality services, as well as for the implementation of the Pennsylvania 1115 Demonstration Waiver project.

Treatment providers that are recipients of public funds, including Medicaid and SCA dollars, will be required to make these adjustments. While this will be an ongoing process, these online presentations will begin this next phase of describing the expectations for aligning with the ASAM Criteria, 2013. Therefore, programmatic decision-makers should plan on participating on one of the presentations for each level of care (LoC) related to services delivered. DDAP will also be releasing supporting written documentation via its listserv and website for each LoC, will be holding web and live Q & A sessions, etc. to assist with this next phase of the ASAM Criteria alignment. Please watch the website and listserv for additional details.

Child welfare agencies have taken steps to promote safety of case workers and families during this time of physical distancing, including strategies to limit face-to-face interactions. However, circumstances remain where these interactions are necessary to assess child safety and parent/caregiver capacity to maintain child safety and well-being. This webinar will review relevant guidance and recommendations by the CDC to on how to reduce the risk of child welfare case workers while conducting in-person interactions with children and families during the crisis. Participants will also hear an example from the field of how this guidance is being implemented in practice in Massachusetts.

Please hold the date and time on your calendars. Registration information is forthcoming.
